### [Magic Kitchen](#)

Who needs the bother of cooking over a hot stove when it's 90 degrees outside? Magic Kitchen is the answer to your prayers. They offer wholesome, delicious meals that arrive ready to eat-that is, after a few minutes in the microwave. Frozen dinners just got tastier. And the selection is huge. You can order a three-course meal, complete with dessert, or you can leave the meal in their capable hands. Magic Kitchen offers meal bundles for anywhere from 2-4 people. Imagine lounging in the afternoon sun with a good book and a glass of wine instead of slaving away in a sweltering kitchen for four hours trying to get supper on the table for your busy family and yourself. And the best part is, there are no dishes to worry about. Magic Kitchen meals go straight from the deep freeze into the oven or microwave and then straight onto the table. No one will be fighting over whose turn it is to clean up after supper, which may leave you with more down time than you know what to do with.
